MAINE GOES TO CUBA

United States Warship to Be Stationed at Havana.

PRESIDENT'S RADICAL MOVE.

Only Two Members of the Cabinet Aware of His Intentions—What Representatives of Cuban Government Say.

WASHINGTON, Jan. 25.—Within 24 hours, for the first time since the insurrection broke out in Cuba three years ago, the United States government will be represented in the harbor of Havana by a war ship. The decision to send the United States ship Maine was finally reached at a special meeting between the president, secretary Long, Assistant Secretary Day, Attorney General McKenna and General Miles, and it is a striking fact that with the exception of the secretary of the navy

BATTLESHIP MAINE.

and the attorney general not a member of the cabinet knew of the president's intention to take this radical action. It is not denied, however, that some such move has been long in contemplation, as is evidenced in the following statement by Assistant Secretary Day: "The sending of the Maine to Havana means simply the resumption of friendly naval relations with Spain. It is customary for naval vessels of friendly nations to pass in and out of the harbors of other countries with which they are at peace. The president has intended to do this for some time, but heretofore something has happened to postpone it. The orders to the Maine mean nothing more than I have said, and there is nothing alarming or unfriendly in them." Further, Assistant Secretary Day said that Consul General Lee had not sent for a warship.

HOW THEY VIEW IT.

Representatives of the Cuban Government interviewed.

WASHINGTON, Jan. 25.—Senator Quesada, secretary of the Cuban junta, and Senator Albertini, of the Cuban staff in Washington, were seen during the day. Mr. Quesada said: "The sending of the Maine to Cuba, whatever be the official version, is in our opinion, proof that things are in such condition in the few Spanish strongholds that anarchy reigns, and that American citizens and property, unable to find protection at the hands of the impotent Spanish government, have now the protection of their own vessels. It is a declaration to the world that the United States are not afraid of the Spanish rabble which seems to control the Spanish officials." Senator Albertini says the sending of the Maine will justify itself by future events. From his acquaintance with Spanish methods he says there is greater reason for apprehension than has yet been shown, and he declares that as soon as Spain finds that Cuba is lost a carnival of slaughter will be inaugurated with the guns of Morro Castle and the Cabanas trained on the city of Havana.

AT LEE'S REQUEST.

Was the Battleship Sent to Havana.

Consultation at Judge McKenna's.

NEW YORK, Jan. 25.—The World's Washington correspondent this morning says that the battleship Maine was ordered to Havana in response to a cablegram from Consul General Lee. After 6 o'clock last night three cipher dispatches from General Lee were received at the state department, translated and sent to Judge Day, assistant secretary of state, who took them to the dinner given by Judge McKenna. At that dinner all the members of the cabinet except General Alger were present, and a consultation, practically a cabinet meeting, was held to consider the situation in Cuba. After returning to the executive mansion the president ordered direct telegraphic connection between there and Key West.

Consented to Negotiate a Treaty.

WASHINGTON, Jan. 25.—Minister Woodford has cabled to the department of state that the government of Spain has consented to negotiate a commercial treaty with the United States on the basis of reciprocity, with schedules for Cuba and the peninsula. The negotiation will be conducted in Washington at a time yet to be agreed upon.

Yellow Fever.

WASHINGTON, Jan. 20.—Indiana postmasters were appointed yesterday as follows: Nevada, Williamson T. Hughes; Pigeon, Isaac H. King; Red Bridge, Walter J. Osborn.

MONETARY CONFERENCE.

Delegates Welcomed by Governor Mount.

INDIANAPOLIS, Jan. 25.—The general interest in the monetary convention, which meets in this city this afternoon, was shown by the large number of delegates who are in attendance, something over 300. The convention assembled at the Grand opera-house at 3 o'clock this afternoon and was called to order by Chairman Hanna of the executive committee. Governor Mount of Indiana, delivered a brief address of welcome and Governor Shaw of Iowa was introduced as the permanent chairman of the convention and made an address. Hon. C. Stuart Patterson, a member of the commission, will present its report this evening, and Mr. John C. Bullitt of Philadelphia, will make a speech. There will be speeches tomorrow morning by ex-Secretary Charles S. Fairchild of New York, and Representative Overstreet, of Indiana, who introduced the bill of the commission in the house. It is expected that the committee on resolutions will be ready to report on tomorrow afternoon.

There appears to be no doubt that the report of the committee on resolutions will cordially endorse the plan of the commission for currency reform in its entirety. This is the tone of interviews gained with the delegates. Some of us have some changes of detail which I would favor if the whole which were committed to them, but there was a general expression that the necessity of currency reform was such and the importance of securing action by congress that individual preferences should give place to unity of action.

BLANCO'S TRIP.

Captain General Goes to the South Coast.

HAVANA, Jan. 25.—Captain General Blanco has gone to Batabano, on the south coast. From there he will take a coasting steamer to Cienfuegos, Santa Clara province, and from that port he will go to Manzanillo, province of Santiago de Cuba. During the absence of the captain general General Parrado will exercise the functions of that office. General Blanco has issued a decree pardoning all persons now under sentence for complicity in the "rebellion" whose terms of imprisonment would expire on or before Feb. 28 next.

IT IS A BIG SWINDLE

The Baker Millions of Philadelphia are a Myth.

THERE ARE MANY VICTIMS.

Associations of Heirs Exist in Ohio, Indiana, Michigan, Illinois and Iowa and are Being Gulled by Unscrupulous Lawyers—Estate Never Worth Over \$50,000.

PHILADELPHIA, Jan. 25.—The credulous people who are being gulled by unscrupulous attorneys into the belief that they are descendants and possibly heirs to a \$500,000,000 estate left by Jacob Baker, a Philadelphia merchant, and revolutionary soldier, will be surprised when they learn that there never was a Baker estate of any extraordinary value. So adroitly has the scheme been worked that there are Baker alliances and auxiliary affairs in nearly every state in the Union, but especially in Ohio, Michigan, Illinois, Indiana and Iowa. The Bakers who spell their name with a capital B are as numerous apparently as the Smith, Brown and Jones families and the field has been a fertile one for attorneys who have been retained by supposed heirs to get their share of the fabulous amount.

There was a Jacob Baker and his holdings in this city included the block bounded now by Fifth, Sixth, Arch and Market streets. When he died, before 1790, his property was not highly appraised and he left neither wife nor children. All that he owned went legally to his brothers, Henry and Samuel, as papers on file show. The line of Henry died after one generation and the only Baker who is an heir is Samuel, living at Lambertville, N. J. The other heirs are named Betts and live in Philadelphia or Bucks county. The whole estate was never worth over \$50,000 and the Bakers throughout the country who are signing and striving for a slice of the Baker estate are on a fool's errand of prodigious proportions and doomed to the most bitter disappointment.

INTERSTATE MINERS.

Little Progress Made at the Chicago Convention.

CHICAGO, Jan. 25.—The interstate bituminous coal miners and operators made little progress yesterday in session, but the miners made their position plain and signified their intention to do or die. Their demands were reiterated for a 10 cent advance and a uniform base of weights. As the convention seemed to be nearing a point when action would be absolutely necessary the whole matter, including the resolutions presented by the miners, was referred back to the scale committee with instructions to report today. The main question is now whether Illinois will break away from the contracts running to May 1 or insist upon holding their good. If the Illinois operators can be arranged for, nothing will prevent a quick settlement as the other operators are ready and willing to grant the advance demanded.

ALLEGED DEFAULTER.

Ex-County Clerk Hyde Returns to Dixon, Ill., and is Arrested.

DIXON, Ill., Jan. 25.—Arvine S. Hyde, former county clerk and recorder of Lee county and secretary of the Dixon Building and Loan association, who, according to State Inspector Dunlap, is \$14,099.45 short in his accounts as secretary, has returned from Tacoma and submitted to arrest. He was taken before Justice Scott, who held him for the grand jury under bond.

Hyde informed his bondsmen that he thought if given a chance to go over the books he could cut down the apparent shortage by one half. It is likely that that his wishes in the matter will be granted. He was short about \$1,500 while acting as deputy county treasurer a year ago. This he fixed up in December last, but since then some other transactions have come to light.

ENSLEY MAY GO FREE.

Accused of Assaulting and Robbing His Friend of \$6,000.

ST. LOUIS, Jan. 25.—It is probable that the case of Martin Ensley, the Tennesseean, charged with assaulting and robbing his friend, Charles D. Collins, will be dismissed next Monday, as Prosecuting Attorney Heidorn thinks it impossible to secure a conviction without the prosecuting witness. Charles D. Collins was nearly killed at Meramec highlands last June and said he was robbed of \$6,000. He accused Ensley of the crime and was bitter in denouncing him. He left town before the trial came up and has refused to return and prosecute the case.

The fuel product of these 50 wells would be equivalent to 10,000 tons of coal a day.

BOYS COLLIDED.

One Has Lost His Memory as a Result of the Blow.

CHILLICOTHE, O., Jan. 25.—Sometime ago Roy Traub and Dave Yoakum, two boys about 12 years of age, were running about the yard when they collided, their heads striking together with great force. A short time after Traub began acting in a peculiar manner. He seemed to be dazed and his memory became a complete blank. He did not suffer pain and there was no external signs from the collision. As no change in his condition became apparent, a physician was called in, and upon examination it was discovered the boy's skull was pressed in upon the brain. It will be necessary to raise the skull before he can regain his memory.

Women of Lexington Will Try to Stop Sabbath Trading.

LEXINGTON, Ky., Jan. 25.—The women of this city have decided to commence a warfare on Sunday business. A meeting of 400 men and women has been held at which Attorney J. H. Beauchamp, husband of the famous temperance advocate, presided. Committees were appointed to wait on business men and endeavor to induce them to sign an agreement to keep their places closed. If the report of these committees at a meeting on Feb. 6 is not favorable then an effort will be made to have the general council enforce ordinances against Sunday trading.

That dull thud the other day when the New York Journal, with its circulation up in the indroth thousand dropped Mr. Bryan.

JAPAN has not yet returned to the silver standard despite the advice of those postulates of free coinage, Senators Pettigrew, Mantel and Dubois who visited that country in behalf of the white metal last summer.

The exports from the United States are greater than in any year in her history. How do the democratic croakers who were insisting that the Dingley law would reduce our markets abroad account for this?

Even the yellow New York Journal has discarded Mr. Bryan and his theories, but it is authoritatively stated that the silver champion retains the entire and unqualified approval of the Honorable but sockless Jeremiah Simpson.

CUBA AND HAWAII.

Discussed by Our Washington Correspondent This Week.—McKenna Confirmed.

WASHINGTON, Jan. 24.—President McKinley's Cuban policy has not been changed one iota by the democratic hubbub in the house last week. He stands now just where he has stood from the beginning and the move he has made has been because of happenings in Cuba and not because of howling among democrats. For weeks this government has been ready to move at the proper time—when it shall be justified in moving about peace in Cuba. It will not delay because of lying Spanish news from Cuba, any more than it will hurry because of democratic ranting.

The republicans in congress are supporting this policy solidly and are likely to continue to do so notwithstanding democratic prophecy to the contrary.

The republicans of the house are as solidly behind the administration on the Hawaiian question as upon the Cuban question. This was shown when Chairman Hitt, of the committee on foreign affairs, moved to table a resolution calling upon the President for his authority for negotiating a treaty for the annexation of Hawaii in which it is agreed to pay the Hawaiian public debt of \$4,000,000 out of the United States treasury. The democrats tried their best to prevent the resolution being laid on the table, but Mr. Hitt's motion was supported by the republicans and was carried. There are no new developments in connection with the consideration of the annexation treaty by the senate.

It is Mr. Justice McKenna now, the late Attorney General's nomination to the bench of the supreme court having been confirmed by the senate without a roll call. Gov. Griggs, of New Jersey, who will as soon as his nomination is confirmed by the senate, assume the portfolio of Attorney General in the cabinet, has been extending his already large acquaintance among public men during a visit to Washington; consequently the president is receiving more praise than ever for the selection of so able a man as Gov. Griggs to succeed Justice McKenna.

Miss Hattie Swope Dead.

Yesterday afternoon Mrs. H. C. Montgomery received a message from Louisville announcing the death of her sister, Miss Hattie Swope. She had gone to Louisville to undergo a surgical operation and her brother, Allen Swope, was with her. The operation was performed in the afternoon from which she rallied and it seemed that she would get through nicely. But she took a relapse and died about three o'clock. Her brother left her about noon having been advised by the surgeons that she would survive the operation all right. The announcement of her death was a surprise to him.

Miss Swope was well known in Seymour having many friends and relatives here. The family have the sincere sympathy of all in their bereavement. The funeral and burial will take place at Louisville tomorrow.

BRIBERY INVESTIGATION.

Thirty Witnesses Examined at Cincinnati By the Committee.

CINCINNATI, Jan. 25.—The legislative committee last night closed its investigation in this city of the Otis charge of bribery in the recent election of United States senator. The senate committee will continue its work at Columbus. Thirty witnesses have been examined here, most of them being employees of the Gibson House, of telegraph and telephone companies and of the Union Savings and Trust company. As the evidence of Representative John C. Otis, and of Col. Thomas C. Campbell will be very lengthy they were not called here but Mr. Otis will likely be the next witness at Columbus. Several witnesses called refused to testify or be sworn, claiming the committee had no jurisdiction. Chairman Burke announced that as soon as all the willing witnesses had testified the unwilling ones would be brought before the bar of the senate for punishment.

He sees that they are in order and that the conductors and porters are on duty.

FOR ALL WOMEN

NINE-TENTHS of all the pain and sickness from which women suffer is caused by weakness or derangement in the organs of menstruation. Nearly always when a woman is not well these organs are affected. But when they are strong and healthy a woman is very seldom sick.

McELREY'S Wine of Cardui

Is nature's provision for the regulation of the menstrual function. It cures all "female troubles." It is equally effective for the girl in her teens, the young wife with domestic and maternal cares, and the woman approaching the period known as the "Change of Life." They all need it. They are all benefitted by it.

For advice in cases requiring special directions, address, giving symptoms, the Ladies' Advisory Department, The Chattanooga Medicine Co., Chattanooga, Tenn.

THOS. J. COOPER, Tupelo, Miss., says: "My sister suffered from very irregular and painful menstruation and doctors could not relieve her. Wine of Cardui entirely cured her and also helped my mother through the Change of Life."

Robbed the Grave.

A startling incident of which Mr. John Oliver, of Philadelphia, was the subject is narrated by him as follows: I was in a most dreadful condition. My skin was almost yellow, eyes, no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately a friend advised trying "Electric Bitters" and to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they saved my life and robbed the grave of another victim. No one should fail to try them. Only 50 cents per bottle at W. F. Peter, druggist.

Deafness Cannot be Cured

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free F. J. CHENEY & CO., Toledo, O. Sold by all druggists, 75c. Hall's Family Pills are the best.

Critical Examination.

We want you to critically examine every garment we make for you. We want you to look at the seams and at the button holes, and at every part where it could possibly be slighted. Test it in every way—strain it. If it is not just as we said it would be, if it is not solid material, honestly put together let us know about it and we'll make things right.

ONE OF TWO WAYS.
The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.
CHIEF CAUSE.
Unhealthy urine from unhealthy kidneys is the chief cause of bladder trouble. So the womb, like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble of some sort. The error is easily made and may be as easily avoided. To find out correctly, set your urine aside for twenty-four hours; a sediment or settling indicates kidney or bladder trouble. The mild and the extraordinary effect of Dr. Kilmer's Swamp Root, the great kidney and bladder remedy is soon realized. If you need any medicine you should have the best. At druggists fifty cents and one dollar. You may have a sample bottle and pamphlet, both sent free by mail. Mention the REPUBLICAN and send your address to Dr. Kilmer & Co., Binghamton, N. Y. METHOD IN HIS MADNESS.
Police Officers Who Hamored a Man Found Out Their Error.
A tall, slim man, with a vacant stare, walked into the police station of a western city, stepped up to the officer on duty and said in a hollow voice: "Sir, I have an important communication to make. I am dead. I was murdered, and I entreat you to find the murderer and have me buried."
The official started back. It was evident he had a lunatic before him. He rang a bell, and the captain of the division, the police surgeon and all the constables obeyed the summons. In a moment the room was packed with a crowd of persons, all anxiously looking toward the surgeon, who, in such cases, has the first word.
"Just so," the latter said, addressing the stranger. "I could tell at a glance you were dead. Do you happen to know your name?"
"Certainly," the maniac replied. "My name is Berthold Lenwarz."
"And your address?"
"The grave."
"Who is the murderer?"
"Columbus."
"The same as discovered America?"
"Yes."
"Then let me congratulate you. We have captured the smart chap. Come, I will show you to his cell."
"Directly," said the madman in reply to the surgeon's diplomatic little speech and began fumbling in his pocket, from which he quickly produced a thick packet of neatly bound almanacs. "Gentlemen, when I was alive, I used to sell these almanacs. They are the best sold in this country and only cost threepence each. You will admit that these handsome little volumes ought not to be left to molder in the grave, and, as we appear on such friendly terms, perhaps the gentlemen will not object to buy the lot."
Ten minutes later, almanacs all sold, he departed.—Scottish Nights.

At His Wife's End.
He sat in his office musing. "Now, here are two tickets for the theater to-night," he said. "If I ask Jones to go with me, I'm sure to find out when I get home to dinner that it's the only thing that's been here in a year that my wife really wants to see, and if I don't ask any one to go and plan to take her I'll learn when it's too late to make any change that nothing could hire her to sit through the old piece."
He puzzled his head over the question for an hour, and then he tossed up a quarter to decide what he would do, although he knew he would lose whichever way it came.—Chicago Post.

MILITARY SCIENCE.
Simplified Fortifications, Bicycles and Automatic Guns Are Modern Features.
It seems to be the general opinion among United States army officers that the development of military science in the immediate future will be in the direction of simplified fortifications, greater utilization of the bicycle and the extended use of some form of automatic gun. The modern army engineer sees little use in raising great mounds of earth such as used to be done when hasty and even permanent works were needed. The bigger the earthwork the greater the mark for the enemy's guns. A hole in the ground has been the theoretical formula for fort building, and now that we possess fieldpieces with disappearing carriages it can be practically carried out. A gun that is capable of rising out of an innocent looking hole, pouring forth great volleys of death dealing bullets and then sinking out of sight, leaving hardly a trace of its presence and certainly nothing to fire at, is formidable enough to invest the new theory with all needful logic. It would be to an enemy what the hollow road near Waterloo was to the cuirassiers of Napoleon.
The rifle of the future will be the automatic rifle. This is the conclusion of military men not only of this, but of other countries. General Wille, a German army expert on the subject of firearms, says decisively that it will ultimately be the rifle in general use by the armies of the world. Its particular point of merit is its capacity for doing away with the mechanical operation of loading. In effect it does its own loading, leaving the soldier free to attend to the business of firing, thus concentrating his attention on his opponent and rendering his aim surer.
As pointed out by General Wille, the force of the recoil of the automatic gun is employed for charging and closing the breech, and the firer has only to let off the shot in order again to load the weapon, so that the number of shots discharged without an effort is precisely the same as the total contents of the magazine. The only comparatively weak part of the automatic gun lies in its springs, but, as they have been found after tests made in Austria to withstand the wear and tear of from 10,000 to 14,000 discharges, this does not count for much.—New York Sun.

MAINE GOES TO CUBA

United States Warship to Be Stationed at Havana.

PRESIDENT'S RADICAL MOVE.

Only Two Members of the Cabinet Aware of His Intentions—What Representatives of Cuban Government Say.

Spaulding Willing to Negotiate a Reciprocity Treaty.

WASHINGTON, Jan. 25.—Within 24 hours, for the first time since the insurrection broke out in Cuba three years ago, the United States government will be represented in the harbor of Havana by a war ship. The decision to send the United States ship Maine was finally reached at a special meeting between the president, secretary Long, Assistant Secretary Day, Attorney General McKenna and General Miles, and it is a striking fact that with the exception of the secretary of the navy

and the attorney general, not a member of the cabinet knew of the president's intention to take this radical action. It is not denied, however, that some such move has been long in contemplation, as is evidenced in the following statement by Assistant Secretary Day: "The sending of the Maine to Havana means simply the resumption of friendly naval relations with Spain. It is customary for naval vessels of friendly nations to pass in and out of the harbors of other countries with which they are at peace. The president has intended to do this for some time, but heretofore something has happened to postpone it. The orders to the Maine mean nothing more than I have said, and there is nothing alarming or unfriendly in them." Further, Assistant Secretary Day said that Consul General Lee had not sent for a warship.

HOW THEY VIEW IT.

Representatives of the Cuban Government interviewed.

WASHINGTON, Jan. 25.—Senator Quesada, secretary of the Cuban junta, and Senator Albertini, of the Cuban staff in Washington, were seen during the day. Mr. Quesada said: "The sending of the Maine to Cuba, whatever be the official version, is in our opinion, proof that things are in such condition in the few Spanish strongholds that anarchy reigns, and that American citizens and property, unable to find protection at the hands of the impotent Spanish government, have now the protection of their own vessels. It is a declaration to the world that the United States are not afraid of the Spanish rabble which seems to control the Spanish officials."

Senator Albertini says the sending of the Maine will justify itself by future events. From his acquaintance with Spanish methods he says there is greater reason for apprehension than has yet been shown, and he declares that as soon as Spain finds that Cuba is lost a carnival of slaughter will be inaugurated with the guns of Morro Castle and the Canas trained on the city of Havana.

AT LEE'S REQUEST.

Was the Battleship Sent to Havana. Consultation at Judge McKenna's.

NEW YORK, Jan. 25.—The World's Washington correspondent this morning says that the battleship Maine was ordered to Havana in response to a cablegram from Consul General Lee. After 6 o'clock last night three cipher dispatches from General Lee were received at the state department, translated and sent to Judge Day, assistant secretary of state, who took them to the dinner given by Judge McKenna. At that dinner all the members of the cabinet except General Alger were present, and a consultation, practically a cabinet meeting, was held to consider the situation in Cuba. After returning to the executive mansion the president ordered direct telegraphic communication between there and Key West.

Consented to Negotiate a Treaty.

WASHINGTON, Jan. 25.—Minister Woodford has called to the department of state that the government of Spain has consented to negotiate a commercial treaty with the United States on the basis of reciprocity, with schedules for Cuba and the peninsula. The negotiation will be conducted in Washington at a time yet to be agreed upon.

Yellow Fever.

WASHINGTON, Jan. 25.—Surgeon General Wyman has received a dispatch dated the 20th inst., from Dr. Stewart at Memphis, stating that the secretary of the Mississippi state board of health reported one and possibly three cases of yellow fever near Edwards, Miss.

MONETARY CONFERENCE.

Delegates Welcomed by Governor Mount. Shaw Permanent Chairman.

INDIANAPOLIS, Jan. 25.—The general interest in the monetary convention, which meets in this city this afternoon, was shown by the large number of delegates who are in attendance, something over 300. The convention assembled at the Grand opera-house at 3 o'clock this afternoon and was called to order by Chairman Hanna of the executive committee. Governor Mount of Indiana, delivered a brief address of welcome and Governor Shaw of Iowa was introduced as the permanent chairman of the convention and made an address.

Hon. C. Stuart Patterson, a member of the commission, will present its report this evening, and Mr. John C. Bullitt of Philadelphia, will make a speech.

There will be speeches tomorrow morning by ex-Secretary Charles S. Fairchild of New York, and Representative Overstreet, of Indiana, who introduced the bill of the commission in the house. It is expected that the committee on resolutions will be ready to report on tomorrow afternoon.

There appears to be no doubt that the report of the committee on resolutions will cordially endorse the plan of the commission for currency reform in its entirety. This is the tone of interviews with the delegates. Some of them have some changes of detail which they would favor if the whole work were committed to them, but there was a general expression that the necessity of currency reform was such and the importance of securing action by congress that individual preferences should give place to unity of action.

BLANCO'S TRIP.

Captain General Goes to the South Coast. Pardon's Granted.

HAVANA, Jan. 25.—Captain General Blanco has gone to Batambano, on the south coast. During the absence of the captain general General Parrado will exercise the functions of that office.

General Blanco has issued a decree pardoning all persons now under sentence for complicity in the "rebellion" whose terms of imprisonment would expire on or before Feb. 28 next.

BOULDER, Col., Jan. 25.—Carl W. Belzer, professor of Latin in the University of Colorado, is dead.

He also served as Latin instructor at Mount Morris college, Ill., and later in the same capacity at Carthage, Ill. He was called to the University of Colorado in the early part of the year 1893, where he has since remained a notable figure in the institution.

IT IS A BIG SWINDLE

The Baker Millions of Philadelphia are a Myth.

THERE ARE MANY VICTIMS.

Associations of Heirs Exist in Ohio, Indiana, Michigan, Illinois and Iowa and are Being Guilted by Unscrupulous Lawyers—Estate Never Worth Over \$30,000.

PHILADELPHIA, Jan. 25.—The credulous people who are being guiled by unscrupulous attorneys into the belief that they are descendants and possibly heirs to a \$300,000,000 estate left by Jacob Baker, a Philadelphia merchant, and revolutionary soldier, will be surprised when they learn that there never was a Baker estate of any extraordinary value. So audaciously has the scheme been worked that there are Baker alliances and auxiliary affairs in nearly every state in the Union, but especially in Ohio, Michigan, Illinois, Indiana and Iowa. The Bakers who spell their name with a capital B are as numerous apparently as the Smith, Brown and Jones families and the field has been a fertile one for attorneys who have been retained by supposed heirs to get their share of the fabulous amount.

There was a Jacob Baker who his holdings in this city included the block bounded now by Fifth, Sixth, Arch and Market streets. When he died, before 1790, his property was not highly appraised and he left neither wife nor children. All that he owned went legally to his brothers, Henry and Samuel, as papers on file show. The line of Henry died after one generation and the only Baker who is an heir is Samuel, living at Lambertville, N. J. The other heirs named Bets and live in Philadelphia or Bucks county. The whole estate was never worth over \$30,000 and the Bakers throughout the country who are signing and striving for a slice of the Baker estate are on a fool's errand of prodigious proportions and doomed to the most bitter disappointment.

INTERSTATE MINERS.

Little Progress Made at the Chicago Convention.

CHICAGO, Jan. 25.—The interstate bituminous coal miners and operators made little progress yesterday in session, but the miners made their position plain and signified their intention to do or die. Their demands were reiterated for a 10 cent advance and a uniform base of weights. As the convention seemed to be nearing a point when action would be absolutely necessary the whole matter, including the resolutions presented by the miners, was referred back to the scale committee with instructions to report today. The main question is now whether Illinois will break away from the contracts running to May 1 or insist upon holding their good. If the Illinois operators can be arranged for, nothing will prevent a quick settlement as the other operators are ready and willing to grant the advance demanded.

ALLEGED DEFAULTER.

Ex-County Clerk Hyde Returns to Dixon, Ill., and is Arrested.

DIXON, Ill., Jan. 25.—Arvine S. Hyde, former county clerk and recorder of Lee county and secretary of the Dixon Building and Loan association, who, according to State Inspector Dunlap, is \$14,099.45 short in his accounts as secretary, has returned from Tacoma and submitted to arrest. He was taken before Justice Scott, who held him to the grand jury under bond.

Hyde informed his bondsmen that he thought if given a chance to go over the books he could cut down the apparent shortage by one half. It is likely that his wishes in the matter will be granted. He was short about \$1,500 while acting as deputy county treasurer a year ago. This he fixed up in December last, but since then some other transactions have come to light.

ENSLEY MAY GO FREE.

Accused of Assaulting and Robbing His Friend of \$6,000.

ST. LOUIS, Jan. 25.—It is probable that the case of Martin Ensley, the Tennesseean, charged with assaulting and robbing his friend, Charles D. Collins, will be dismissed next Monday, as Prosecuting Attorney Heidorn thinks it impossible to secure a conviction without the prosecuting witness. Charles D. Collins was nearly killed at Meramec highlands last June and said he was robbed of \$6,000. He accused Ensley of the crime and was bitter in denouncing him. He left town before the trial came up and has refused to return and prosecute the case.

Bodies Washed Ashore.

ASHTABULA, O., Jan. 25.—Three bodies were found on the beach near this port yesterday, having been washed up by the waves during a gale. One of the bodies has been identified as that of James O'Brien, of Erie, who was lost off a fishing tug three weeks ago. The other two are unknown.

Receiver Appointed.

Chronic Dyspepsia Cured.

AFTER suffering for nearly thirty years from dyspepsia, Mrs. H. E. Dugdale, wife of a prominent business man of Warsaw, N. Y., writes: "For 28 years, I was a constant sufferer from dyspepsia and a weak stomach. The lightest food produced distress, causing severe pain and the formation of gas. No matter how careful of my diet I suffered agonizing pain after eating. I was treated by many physicians and tried numerous remedies without permanent help. Two years ago I began taking Dr. Miles' Nervine and Liver Pills and Nerve. Within a week I commenced improving, and persisting in the treatment I was soon able to eat what I liked, with no evil effects. I kept them at hand and a single dose dispels any old symptoms."

Dr. Miles' Remedies are sold by all druggists under a positive guarantee, first bottle free, or money refunded. Book on diseases of the heart and nerves free. Address, DR. MILES MEDICAL CO., Elkhart, Ind.

CUBA AND HAWAII.

Discussed by Our Washington Correspondent This Week.—McKenna Confirmed.

WASHINGTON, Jan. 24.—President McKinley's Cuban policy has not been changed one iota by the democratic hubbub in the house last week. He stands now just where he has stood from the beginning and the more he has made has been because of happenings in Cuba and not because of howling among democrats. For weeks this government has been ready to move at the proper time—when it shall in the eyes of the civilized world be justified in moving about peace in Cuba. It will not delay because of lying Spanish news from Cuba, any more than it will hurry because of democratic ranting. The republicans in congress are supporting this policy solidly and are likely to continue to do so notwithstanding democratic prophecy to the contrary.

The republicans of the house are as solidly behind the administration on the Hawaiian question as upon the Cuban question. This was shown when Chairman Hitt of the committee on foreign affairs, moved to table a resolution calling upon the President for his authority for negotiating a treaty for the annexation of Hawaii in which it is agreed to pay the Hawaiian public debt of \$4,000,000 out of the United States treasury. The democrats tried their best to prevent the resolution being laid on the table, but Mr. Hitt's motion was supported by the republicans and was carried. There are no new developments in connection with the consideration of the annexation treaty by the senate.

It is Mr. Justice McKenna now, the late Attorney General's nomination to the bench of the supreme court having been confirmed by the senate without a roll call. Gov. Griggs of New Jersey, who will as soon as his nomination is confirmed by the senate, assume the portfolio of Attorney General in the cabinet, has been extending his already large acquaintance among public men during a visit to Washington; consequently the president is receiving more praise than ever for the selection of so able a man as Gov. Griggs to succeed Justice McKenna.

Miss Hattie Swope Dead.

Yesterday afternoon Mrs. H. C. Montgomery received a message from Louisville announcing the death of her sister, Miss Hattie Swope. She had gone to Louisville to undergo a surgical operation and her brother, Allen Swope, was with her. The operation was performed in the afternoon from which she rallied and it seemed that she would get through nicely. But she took a relapse and died about three o'clock. Her brother left her about noon having been advised by the surgeons that she would survive the operation all right. The announcement of her death was a surprise to him.

Miss Swope was well known in Seymour having many friends and relatives here. The family have the sincere sympathy of all in their bereavement. The funeral and burial will take place at Louisville tomorrow.

The Discovery of the Day.

Aug. J. Bogel, the leading druggist of Shreveport, La., says: "Dr. King's Discovery is the only that cures my cough, and it is the best seller I have." J. F. Campbell, merchant of Safford, Ariz., writes: "Dr. King's New Discovery is all that is claimed for it; it never fails, and is a sure cure for Consumption, Coughs and Colds. I cannot say enough for its merits. Dr. King's New Discovery for Consumption, Coughs and Colds is not an experiment. It has been tried for a quarter of a century and today stands at the head. It never disappoints. Free trial bottles at W. F. Peter's drug store.

When you are suffering from catarrh or cold in the head you want relief right away. Only 10 cents is required to try it. Ask your druggist for the trial size of Ely's Cream Balm, or buy the 50c size. We mail it.

BRIBERY INVESTIGATION.

Thirty Witnesses Examined at Cincinnati By the Committee.

CINCINNATI, Jan. 25.—The legislative committee last night closed its investigation in this city of the Otis charge of bribery in the recent election of United States senator. The senate committee will continue its work at Columbus. Thirty witnesses have been examined here, most of them being employees of the Gibson House, of telegraph and telephone companies and of the Union Savings and Trust company. As the evidence of Representative John C. Otis, and of Col. Thomas C. Campbell will be very lengthy they were not called here but Mr. Otis will likely be the next witness at Columbus. Several witnesses called refused to testify or be sworn, claiming the committee had no jurisdiction. Chairman Burke announced that as soon as all the willing witnesses had testified the unwilling ones would be brought before the bar of the senate for punishment.

FOUND GUILTY.

Former City Treasurer of Minneapolis Convicted of Embezzlement.

MINNEAPOLIS, Jan. 25.—Andrew O. Haugan, former city treasurer of Minneapolis, has been found guilty of misappropriation of the funds of the city in his charge. The jury had been out since Saturday afternoon. A memorandum was attached to the verdict recommending the defendant to the mercy of the court. Sentence will be passed next Saturday. Mr. Haugan held office during the panic and was president of the failed Washington state bank. He became very much involved and permitted his personal difficulties to become complicated with the affairs of his office.

EARNING HIS LIVING.

Sanger Pullman Is Now Inspector of Palace Cars.

CHICAGO, Jan. 25.—Sanger Pullman, son of the dead palace car man, is earning his living now. He is inspector of palace cars, and has charge of all the sleepers that run out of Chicago. "Yes," he said in reply to an inquiry, "I am working—working for a living. I don't see anything unusual in that." Young Pullman knows all the cars that belong to his district, and can tell the names of most of them. He attends to them personally. He sees that they are in order and that the conductors and porters are on duty.

DUDLEY CAPTURED.

Negro Who Attempted an Assault on a Little Girl Near Augusta.

AUGUSTA, Ky., Jan. 25.—Sheriff Hook has captured the negro William Dudley, who attempted to assault the 5-year-old daughter of Albert Bravard. The sheriff captured Dudley at Minerva. The prisoner will be taken to Brookville for his examination. Dudley's father was killed in the village of Minerva some 20 years ago for committing a criminal assault on a white woman, being shot by a brother of the girl.

PROBABLY POISONED.

Eyewash Supposed to Have Been Given by Mistake.

AKRON, O., Jan. 25.—Camille Conlio, aged 11, was buried in the Catholic cemetery Saturday. A burial permit was issued giving the cause of death as grip. Rumors have since reached the corner that will result in an investigation. It is claimed by several people that death was the result of poison. The supposition is that by mistake she was given, instead of medicine, an eyewash in which there was sugar of lead.

HIBERNIANS.

Will Celebrate the Insurrection of 1798 in August.

PHILADELPHIA, Jan. 25.—James O'Sullivan, national secretary of the Ancient Order of Hibernians, has received a cablegram from Dublin stating that the week commencing Aug. 21 has been fixed upon for the principal exercises in Ireland in connection with the centennial of the insurrection of 1798.

FOR ALL WOMEN

NONE-TENTHS of all the pain and sickness from which women suffer is caused by weakness or derangement in the organs of menstruation. Nearly always when a woman is not well these organs are affected. But when they are strong and healthy a woman is very seldom sick.

McELREE'S Wine of Cardui

Is nature's provision for the regulation of the menstrual function. It cures all "female troubles." It is equally effective for the girl in her teens, the young wife with domestic and maternal cares, and the woman approaching the period known as the "Change of Life." They all need it. They are all benefited by it.

For advice in cases requiring special directions, address, giving symptoms, the Ladies' Advisory Department, The Chattanooga Medicine Co., Chattanooga, Tenn.

THOS. J. COOPER, Tupelo, Miss., says: "My sister suffered from very irregular and painful menstruation and doctors could not relieve her. Wine of Cardui entirely cured her and also helped my mother through the Change of Life."

Robbed the Grave.

A startling incident of which Mr. John Oliver, of Philadelphia, was the subject is narrated by him as follows:

I was in a most dreadful condition. My skin was almost yellow, eyes, no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately a friend advised trying "Electric Bitters" and to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they saved my life and robbed the grave of another victim. No one should fail to try them. Only 50 cents per bottle at W. F. Peter, druggist.

John—So you really think you have some chance of winning her, do you?

Henry—Oh, yes! I feel quite encouraged. She has begun to find fault with my looks.—Cincinnati Enquirer.

THE AMERICAN MONTHLY REVIEW OF REVIEWS

It is impossible to promise particular features that will appear in the "AMERICAN MONTHLY" during the coming year, for it is, as the Bookman says, "a great monthly newspaper." As such, it prints for its readers an illustrated account of the notable things which make the history of the month, of the political, the economic, and literary happenings which are of value to intelligent men and women. The Editor's "Progress of the World" tells succinctly an illustrated story of the month. The "Leading Articles" give the best thought and information of the current magazines in five continents; the contributed articles furnish the character sketches of the men of the month, and give timely discussions by authorities on any question of immediate serious import.

The result of this comprehensive effort to edit in one monthly volume the information needed by intelligent people of "live" instincts is best gauged in the opinions which the readers of the AMERICAN MONTHLY have seen fit to express. These are thinking business men, clergymen, editors, lawyers, professors, engineers, the wide-awake women of America. They write that the AMERICAN MONTHLY "is indispensable"; "is simply invaluable"; "is a generous library in itself"; "is a historical cyclopedia of the world"; "the best means of aid for a busy man"; "the best periodical of the kind we have ever had"; "a triumph of editorial genius"; "the world under a field-glass," etc., etc.

CHAS. A. DANA'S REMINISCENCES

These reminiscences contain more unpublished war history than any other book except the Government publications. Mr. Dana was intimately associated with Lincoln, Stanton, Grant, Sherman, and the other great men of the Civil War. He had the confidence of the President and his great War Secretary, and he was sent on many private missions to make important investigations in the army. Lincoln called him "The Eyes of the Government at the Front." Everywhere through these memoirs are bits of Secret History and Fresh Recollections of Great Men. These Reminiscences will be illustrated with many rare and unpublished photographs from the Government collection, which now contains over 8,000 negatives of almost priceless value.

The Christmas McClure's contained a complete *Secret Story* by Rudyard Kipling entitled "The Tote or His Ancestors," the tale of a clouded Tiger, an officer in the Indian army, and a rebellious tribe. We have in hand also a *New Ballad* a powerful, grim, moving story from *Chaplin's War Photographs* from the Government collection, which now contains over 8,000 negatives of almost priceless value.

"Robert of Heintze" the sequel to "The Prisoner of Zenda," in splendid invention, in characters, in dramatic situations, it is the most and most stirring novel that Anthony Hope has ever written.

Rudyard Kipling, Robert Barr, William Allen White, Ian MacLaren, Clive Thorne, Stephen Crane, and many others, the best story writers in the world, will contribute to McClure's during the coming year.

WESTMINSTER ABBEY.

Something About This World Famous Old English Church.

The architecture of Westminster abbey dates back to a remote period, but long before any part of the present "glorious pile" was in existence a Saxon church stood upon the same spot. Many years before the conquest the Saxon church was connected with a monastic body of the Benedictine order, which gave the name Westminster monastery, to distinguish it from St. Paul's, in London, which was known as Eastminster.

Considered architecturally, the first church here of which we have any authentic history was erected by Edward the Confessor and consecrated on Holy Innocent's day, 1065. The greater part of the abbey was built by Henry III in the style known as early English. The west front, with its grandly beautiful windows, belongs to the fifteenth century, as does also the completion of the nave and the aisles. The extreme length of Westminster abbey is 511 feet, the width across the transepts is 208 feet and the width across the aisles 79 feet; the height of the roof is 102 feet.

The fortunes of the abbey have followed and are closely interwoven with those of the nation, and many, therefore, are its historical associations. There the sovereigns of England have been crowned ever since the conquest. The coronation stone, brought from Scotland by Edward I, may still be seen under the coronation chair used by Richard II. This chair has ever since been occupied by English rulers during the coronation ceremonies.

Within the walls of the abbey the funerals of many crowned heads have taken place, and sovereigns and members of royal families have graves and tombs beneath its roof. Oliver Cromwell never wore a crown, but his remains were deposited for a time in a vault beneath Henry VIII's chapel with pomp never surpassed by that of royalty.

The south transept is known to the world as the "poets' corner," because there, sleeping their last sleep, are Chaucer, Spenser, Ben Jonson, Cowley, Dryden, Beaumont, Addison and Tennyson, and many more. The remains of Shakespeare, Milton, Isaac Watts, Goldsmith and Johnson.

In the north transept are buried many renowned statesmen. There lie Pitt, Wilberforce, Fox, Peel, Canning and Palmerston. Many eminent divines, men of letters, generals, admirals, and other persons known to fame are buried beneath the marble pavement, or have monuments by its pillars or on its historic walls.—Philadelphia Times.

Glass Tombs.
It is a comparatively new idea to put up tombs and monuments of glass, instead of marble or granite, but it is a practical one and likely to meet with great encouragement from those who desire these monuments to be lasting. Glass resists the elements and is to all intents and purposes indestructible. Stone of all sorts crumbles and disintegrates under the action of the elements. But glass remains and will endure for centuries. It is, therefore, proposed that all memorial tablets, monuments and headstones be made of glass. Any color may be selected, pure white, of course, having the first choice. Lettering may be put on in any style, and any device or pattern may be used. It has long been understood that for marine purposes thick plate glass is the only practical and appropriate material, resisting storms and seas as no other substance can.—New York Ledger.

ONE OF TWO WAYS.

The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.

CHIEF CAUSE.

Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble of some sort. The error is easily made and may be as easily avoided. To find out correctly, set your urine aside for twenty-four hours; sediment or settling indicates kidney or bladder trouble. The mild and the extraordinary effect of Dr. Kilmer's Swamp Root, the great kidney and bladder remedy is soon realized. If you need any medicine you should have the best. At druggists fifty cents and one dollar. You may have a sample bottle and pamphlet, both sent free by mail. Mention the REPUBLICAN and send your address to Dr. Kilmer & Co., Binghamton, N. Y. METHOD IN HIS MADNESS.

Police Officers Who Homored a Man Found Out Their Error.

A tall, slim man, with a vacant stare, walked into the police station of a western city, stepped up to the officer on duty and said in a hollow voice:

"Sir, I have an important communication to make. I am dead. I was murdered, and I entreat you to find the murderer and have me buried."

The official started back. It was evident he had a lunatic before him. He rang a bell, and the captain of the division, the police surgeon and all the constables obeyed the summons. In a moment the room was packed with a crowd of persons, all anxiously looking toward the surgeon, who, in such cases, has the first word.

"Just so," the latter said, addressing the stranger. "I could tell at a glance you were dead. Do you happen to know your name?"

"Certainly," the maniac replied. "My name is Berthold Leunwarz."

"And your address?"

"The grave."

"Who is the murderer?"

"Columbus."

"The same as discovered America?"

"Yes."

"Then let me congratulate you. We have captured the smart chap. Come, I will show you to his cell."

"Directly," said the madman in reply to the surgeon's diplomatic little speech and began fumbling in his pocket, from which he quickly produced a thick packet of neatly bound almanacs.

"Gentlemen, when I was alive, I used to sell these almanacs. They are the best sold in this country and only cost threepence each. You will admit that these handsome little volumes ought not to be left to molder in the grave, and, as we appear on such friendly terms, perhaps the gentlemen will not object to buy the lot."

Ten minutes later, almanacs all sold, he departed.—Scottish Nights.

MILITARY SCIENCE.

Simplified Fortifications, Bicycles and Automatic Guns Are Modern Features.

It seems to be the general opinion among United States army officers that the development of military science in the immediate future will be in the direction of simplified fortifications, greater utilization of the bicycle and the extended use of some form of automatic gun. The modern army engineer sees little use in raising great mounds of earth such as used to be done when hasty and even permanent works were needed. The bigger the earthwork the greater the mark for the enemy's guns. A hole in the ground has been the theoretical formula for fort building, and now that we possess fieldpieces with disappearing carriages it can be practically carried out. A gun that is capable of rising out of an innocent looking hole, pouring forth great volleys of death dealing bullets and then sinking out of sight, leaving hardly a trace of its presence and certainly nothing to fire at, is formidable enough to invest the new theory with all needful logic. It would be to an enemy what the hollow road near Waterloo was to the cuirassiers of Napoleon.

The rifle of the future will be the automatic rifle. This is the conclusion of military men not only of this, but of other countries. General Wille, a German army expert on the subject of firearms, says decisively that it will ultimately be the rifle in general use by the armies of the world. Its particular point of merit is its capacity for doing away with the mechanical operation of loading. In effect it does its own loading, leaving the soldier free to attend to the business of firing, thus concentrating his attention on his opponent and rendering his aim surer.

As pointed out by General Wille, the force of the recoil of the automatic gun is employed for charging and closing the breech, and the firer has only to let off the shot in order again to load the weapon, so that the number of shots discharged without an effort is precisely the same as the total contents of the magazine. The only comparatively weak part of the automatic gun lies in its springs, but, as they have been found after tests made in Austria to withstand the wear and tear of 10,000 to 14,000 discharges, this does not count for much.—New York Sun.

NERVE-VOICES, Ex-State Supt., President.

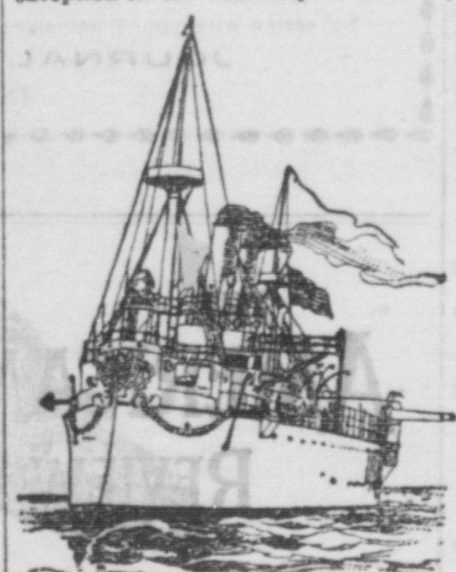

MAINE GOES TO CUBA

United States Warship to Be Stationed at Havana.

PRESIDENT'S RADICAL MOVE.

Only Two Members of the Cabinet Aware of His Intentions—What Representatives of Cuban Government Say. Spain Willing to Negotiate a Reciprocity Treaty.

WASHINGTON, Jan. 28.—Within 24 hours, for the first time since the insurrection broke out in Cuba three years ago, the United States government will be represented in the harbor of Havana by a war ship. The decision to send the United States ship Maine was finally reached at a special meeting between the president, secretary Long, Assistant Secretary Day, Attorney General McKenna and General Miles, and it is a striking fact that with the exception of the secretary of the navy

and the attorney general not a member of the cabinet knew of the president's intention to take this radical action.

It is not denied, however, that some such move has been long in contemplation, as is evidenced in the following statement by Assistant Secretary Day: "The sending of the Maine to Havana means simply the resumption of friendly naval relations with Spain. It is customary for naval vessels of friendly nations to pass in and out of the harbors of other countries with which they are at peace. The president has intended to do this for some time, but heretofore something has happened to postpone it. The orders to the Maine mean nothing more than I have said, and there is nothing alarming or unfriendly in them." Further, Assistant Secretary Day said that Consul General Lee had not sent for a warship.

HOW THEY VIEW IT.

Representatives of the Cuban Government interviewed.

WASHINGTON, Jan. 25.—Senor Quesada, secretary of the Cuban junta, and Senor Albertini, of the Cuban staff in Washington, were seen during the day. Mr. Quesada said: "The sending of the Maine to Cuba, whatever be the official version, is, in our opinion, proof that things are in such condition in the few Spanish strongholds that anarchy reigns, and that American citizens and property, unable to find protection at the hands of the impotent Spanish government, have now the protection of their own vessels. It is a declaration to the world that the United States are not afraid of the Spanish rabble which seems to control the Spanish officials."

Senor Albertini justifies the sending of the Maine will justify itself by future events. From his acquaintance with Spanish methods he says there is greater reason for apprehension than has yet been shown, and he declares that as soon as Spain finds that Cuba is lost a carnival of slaughter will be inaugurated with the guns of Morro Castle and the Canas trained on the city of Havana.

AT LEE'S REQUEST.

Was the Battleship Sent to Havana.

Consultation at Judge McKenna's.

NEW YORK, Jan. 25.—The World's Washington correspondent this morning says that the battleship Maine was ordered to Havana in response to a cablegram from Consul General Lee. After 6 o'clock last night three cipher dispatches from General Lee were received at the state department, translated and sent to Judge Day, assistant secretary of state, who took them to the dinner given by Judge McKenna. At that dinner all the members of the cabinet except General Alger were present, and a consultation, practically a cabinet meeting, was held to consider the situation in Cuba. After returning to the executive mansion the president ordered direct telegraphic connection between there and Key West.

Consented to Negotiate a Treaty.

WASHINGTON, Jan. 25.—Minister Woodford has cabled to the department of state that the government of Spain has consented to negotiate a commercial treaty with the United States on the basis of reciprocity, with schedules for Cuba and the peninsula. The negotiation will be conducted in Washington at a time yet to be agreed upon.

Yellow Fever.

MONEY MARKET.

Delegates Welcomed by Governor Mount.

Show Permanent Chairman.

INDIANAPOLIS, Jan. 25.—The general interest in the monetary convention, which meets in this city this afternoon, was shown by the large number of delegates who are in attendance, something over 300. The convention assembled at the Grand opera-house at 3 o'clock this afternoon and was called to order by Chairman Hanna of the executive committee. Governor Mount of Indiana, delivered a brief address of welcome and Governor Shaw of Iowa was introduced as the permanent chairman of the convention and made an address. Hon. C. Stuart Patterson, a member of the commission, will present its report this evening, and Mr. John O. Bullitt of Philadelphia, will make a speech.

There will be speeches tomorrow morning by ex-Secretary Charles S. Fairchild of New York, and Representative Overstreet, of Indiana, who introduced the bill of the commission in the house. It is expected that the committee on resolutions will be ready to report on tomorrow afternoon. There appears to be no doubt that the report of the committee on resolutions will cordially endorse the plan of the commission for currency reform in its entirety. This is the tone of interviews with the delegates. Some of us have some changes of detail which I would favor if the whole work were committed to them, but there was a general expression that the necessity of currency reform was such and the importance of securing action by congress that individual preferences should give place to unity of action.

BLANCO'S TRIP.

General Blanco has issued a decree pardoning all persons now under sentence for complicity in the "rebellion" whose terms of imprisonment would expire on or before Feb. 28 next.

IT IS A BIG SWINDLE

The Baker Millions of Philadelphia are a Myth.

THERE ARE MANY VICTIMS.

Associations of Heirs Exist in Ohio, Indiana, Michigan, Illinois and Iowa and are Being Gulled by Unscrupulous Lawyers—Estate Never Worth Over \$80,000.

PHILADELPHIA, Jan. 25.—The credulous people who are being gulled by unscrupulous attorneys into the belief that they are descendants and possibly heirs to a \$300,000,000 estate left by Jacob Baker, a Philadelphia merchant, and revolutionary soldier, will be surprised when they learn that there never was a Baker estate of any extraordinary value. So adroitly has the scheme been worked that there are Baker alliances and auxiliary affairs in nearly every state in the Union, but especially in Ohio, Michigan, Illinois, Indiana and Iowa. The Bakers who spell their name with a capital B are as numerous apparently as the Smiths, Browns and Jones families and the field has been a fertile one for attorneys who have been retained by supposed heirs to get their share of the fabulous amount.

There was a Jacob Baker and his holdings in this city included the block bounded now by Fifth, Sixth, Arch and Market streets. When he died, before 1790, his property was not highly appraised and he left neither wife nor children. All that he owned went legally to his brothers, Henry and Samuel, as papers on file show. The line of Henry died after one generation and the only Baker who is an heir is Samuel, living at Lambertville, N. J. The other heirs are named Betts and live in Philadelphia or Bucks county. The whole estate was never worth over \$80,000 and the Bakers throughout the country who are sighing and striving for a slice of the Baker estate are on a fool's errand of prodigious proportions and doomed to the most bitter disappointment.

INTERSTATE MINERS.

Little Progress Made at the Chicago Convention.

CHICAGO, Jan. 25.—The interstate bituminous coal miners and operators made little progress yesterday in session, but the miners made their position plain and signified their intention to do or die. Their demands were reiterated for a 10 cent advance and a uniform base of weights. As the convention seemed to be nearing a point when action would be absolutely necessary the whole matter, including the resolutions presented by the miners, was referred back to the scale committee with instructions to report today. The main question is now whether Illinois will break away from the contracts running to May 1 or insist upon holding their good. If the Illinois operators can be arranged for, nothing will prevent a quick settlement as the other operators are ready and willing to grant the advance demanded.

ALLEGED DEFAULTER.

Ex-County Clerk Hyde Returns to Dixon, Ill., and is Arrested.

DIXON, Ill., Jan. 25.—Arvine S. Hyde, former county clerk and recorder of Lee county and secretary of the Dixon Building and Loan association, who, according to State Inspector Dunlap, is \$14,099.45 short in his accounts as secretary, has returned from Tacoma and submitted to arrest. He was taken before Justice Scott, who held him to the grand jury under bond.

Hyde informed his bondsmen that he thought if given a chance to go over the books he could cut down the apparent shortage by one half. It is likely that that his wishes in the matter will be granted. He was short about \$1,500 while acting as deputy county treasurer a year ago. This he fixed up in December last, but since then some other transactions have come to light.

ENSLEY MAY GO FREE.

Accused of Assaulting and Robbing His Friend of \$6,000.

ST. LOUIS, Jan. 25.—It is probable that the case of Martin Ensley, the Tennesseean, charged with assaulting and robbing his friend, Charles D. Collins, will be dismissed next Monday, as Prosecuting Attorney Heidorn thinks it impossible to secure a conviction without the prosecuting witness. Charles D. Collins was nearly killed at Moramee Highlands last June and said he was robbed of \$6,000. He accused Ensley of the crime and was bitter in denouncing him. He left town before the trial came up and has refused to return and prosecute the case.

CHILLICOTHE, O., Jan. 25.—Sometime ago Roy Traub and Dave Yoakum, two boys about 12 years of age, were running about the yard when they collided, their heads striking together with great force. A short time after Traub began acting in a peculiar manner. He seemed to be dazed and his memory became a complete blank. He did not suffer pain and there was no external signs from the collision. As no change in his condition became apparent, a physician was called in, and upon examination it was discovered the boy's skull was pressed in upon the brain. It will be necessary to raise the skull before he can regain his memory.

LEXINGTON, Ky., Jan. 25.—The women of this city have decided to commence a warfare on Sunday business. A meeting of 400 men and women has been held at which Attorney J. H. No matter how careful of my diet I suffered agonizing pain after eating. I was treated by many physicians and tried numerous remedies without permanent help. Two years ago I began taking Dr. Miles' Restore and Liver Pills and Nerve. Within a week I commenced improving, and persisting in the treatment I was soon able to eat what I liked, with no ill effects. I keep them at hand and a single dose dispels any old symptoms."

That dull thud the other day was when the New York Journal, with its circulation up in the hundred thousand, dropped Mr. Bryan.

JAPAN has not yet returned to the silver standard despite the advice of those postles of free coinage, Senators Pettigrew, Mantel and Dubois who visited that country in behalf of the white metal last summer.

The exports from the United States are greater than in any year in her history. How do the democratic croakers who were insisting that the Dingley law would reduce our markets abroad account for this?

Even the yellow New York Journal has discarded Mr. Bryan and his theories, but it is authoritatively stated that the silver champion retains the entire and unqualified approval of the Honorable but sockless Jeremiah Simpson.

CUBA AND HAWAII.

Discussed by Our Washington Correspondent This Week.—McKenna Confirmed.

WASHINGTON, Jan. 24.—President McKinley's Cuban policy has not been changed one iota by the democratic hubbub in the house last week. He stands now just where he has stood from the beginning and the move he has made has been because of happenings in Cuba and not because of howling among democrats. For weeks this government has been ready to move at the proper time—when it shall in the eyes of the civilized world be justified in moving about peace in Cuba. It will not delay because of lying Spanish news from Cuba, any more than it will hurry because of democratic ranting. The republicans in congress are supporting this policy solidly and are likely to continue to do so notwithstanding democratic prophecy to the contrary.

The republicans of the house are as solidly behind the administration on the Hawaiian question as upon the Cuban question. This was shown when Chairman Hitt of the committee on foreign affairs, moved to table a resolution calling upon the President for his authority for negotiating a treaty for the annexation of Hawaii in which it is agreed to pay the Hawaiian public debt of \$4,000,000 out of the United States treasury. The democrats tried their best to prevent the resolution being laid on the table, but Mr. Hitt's motion was supported by the republicans and was carried. There are no new developments in connection with the consideration of the annexation treaty by the senate.

It is Mr. Justice McKenna now, the late Attorney General's nomination to the bench of the supreme court having been confirmed by the senate without a roll call. Gov. Griggs of New Jersey, who will as soon as his nomination is confirmed by the senate, assume the portfolio of Attorney General in the cabinet, has been extending his already large acquaintance among public men during a visit to Washington; consequently the president is receiving more praise than ever for the selection of so able a man as Gov. Griggs to succeed Justice McKenna.

Miss Hattie Swope Dead.

Yesterday afternoon Mrs. H. C. Montgomery received a message from Louisville announcing the death of her sister, Miss Hattie Swope. She had gone to Louisville to undergo a surgical operation and her brother, Allen Swope, was with her. The operation was performed in the afternoon from which she rallied and it seemed that she would get through nicely. But she took a relapse and died about three o'clock. Her brother left her about noon having been advised by the surgeons that she would survive the operation all right. The announcement of her death was a surprise to him.

Miss Swope was well known in Seymour having many friends and relatives here. The family have the sincere sympathy of all in their bereavement. The funeral and burial will take place at Louisville tomorrow.

I cannot say enough for its merits. Dr. King's New Discovery for Consumption, Coughs and Colds is not an experiment. It has been tried for a quarter of a century and today stands at the head. It never disappoints. Free trial bottles at W. F. Peter's drug store.

BRIBERY INVESTIGATION.

Thirty Witnesses Examined at Cincinnati By the Committee.
CINCINNATI, Jan. 25.—The legislative committee in this city of the Otis charge of bribery in the recent election of United States senator. The senate committee will continue its work at Columbus. Thirty witnesses have been examined here, most of them being employees of the Gibson House, of telegraph and telephone companies and of the Union Savings and Trust company. As the evidence of Representative John C. Otis, and of Col. Thomas C. Campbell will be very lengthy they were not called here but Mr. Otis will likely be the next witness at Columbus. Several witnesses called refused to testify or be sworn, claiming the committee had no jurisdiction. Chairman Burke announced that as soon as all the willing witnesses had testified the unwilling ones would be brought before the bar of the senate for punishment.

FOR ALL WOMEN

NINE-TENTHS of all the pain and sickness from which women suffer is caused by weakness or derangement in the organs of menstruation. Nearly always when a woman is not well these organs are affected. But when they are strong and healthy a woman is very seldom sick.

Is nature's provision for the regulation of the menstrual function. It cures all "female troubles." It is equally effective for the girl in her teens, the young wife with domestic and maternal cares, and the woman approaching the period known as the "Change of Life." They all need it. They are all benefited by it.

For advice in cases requiring special directions, address, giving symptoms, the "Ladies' Advisory Department," The Chattanooga Medicine Co., Chattanooga, Tenn.

THOS. J. COOPER, Tupelo, Miss., says: "My sister suffered from very irregular and painful menstruation and doctors could not relieve her. Wine of Cardui entirely cured her and also helped my mother through the Change of Life."

Robbed the Grave.

A startling incident of which Mr. John Oliver, of Philadelphia, was the subject is narrated by him as follows: I was in a most dreadful condition. My skin was almost yellow, eyes, no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately a friend advised trying "Electric Bitters" and to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they saved my life and robbed the grave of another victim. No one should fail to try them. Only 50 cents per bottle at W. F. Peter, druggist.

THE AMERICAN MONTHLY

REVIEW OF REVIEWS

It is impossible to promise particular features that will appear in the "AMERICAN MONTHLY" during the coming year, for it is, as the Bookman says, "a great monthly newspaper." As such, it prints for its readers an illustrated account of the notable things which make the history of the month, of the political, the economic, and literary happenings which are of value to intelligent men and women. The Editor's "Progress of the World" tells succinctly

The Mortar And the Pestle.

It stands to reason, that a physician can only win the fight against death by using strong, virile drugs. Such drugs can only be found in a first class pharmacy where prescriptions are carefully compounded. "Carefully compounded" means something here.

WESTMINSTER ABBEY.

Something About This World Famous Old English Church.

The architecture of Westminster abbey dates back to a remote period, but long before any part of the present "glorious pile" was in existence a Saxon church stood upon the same spot. Many years before the conquest the Saxon church was connected with a monastic body of the Benedictine order, which gave the name Western monastery, or Westminster, to its place of abode, to distinguish it from St. Paul's, in London, which was known as East Minister.

Considered architecturally, the first church here of which we have any authentic history was erected by Edward the Confessor and consecrated on Holy Innocent's day, 1065. The greater part of the abbey was built by Henry III in the style known as early English. The west front, with its grandly beautiful windows, belongs to the fifteenth century, as does also the completion of the nave and the aisles. The extreme length of Westminster abbey is 511 feet, the width across the transepts is 203 feet and the width across the aisles 70 feet; the height of the roof is 109 feet.

The fortunes of the abbey have followed and are closely interwoven with those of the nation, and many, therefore, are its historical associations. There the sovereigns of England have been crowned since the conquest. The coronation stone, brought from Scotland by Edward I, may still be seen under the coronation chair used by Richard II. This chair has ever since been occupied by English rulers during the coronation ceremonies.

Within the walls of the abbey the funerals of many crowned heads have taken place, and sovereigns and members of royal families have graves and tombs beneath its roof. Oliver Cromwell never wore a crown, but his remains were deposited for a time in a vault beneath Henry VII's chapel with pomp never surpassed by that of royalty.

The south transept is known to the world as the "poets' corner," because there, sleeping their last sleep, are Chaucer, Spenser, Ben Jonson, Cowley, Dryden, Beaumont, Addison and Tennyson and near by are monuments to Shakespeare, Milton, Isaac Watts, Goldsmith and Johnson. In the north transept are buried many renowned statesmen. There lie Pitt, Wilberforce, Fox, Peel, Canning and Palmerston. Many eminent divines, men of letters, generals, admirals and other persons known to fame are buried beneath the marble pavement or have monuments by its pillars or on its historic walls.—Philadelphia Times.

Glass Tombstones.

It is a comparatively new idea to put on tombstones and monuments of glass, instead of marble or granite, but it is a practical one and likely to meet with great encouragement from those who desire these memorials to be lasting. Glass resists the elements and is to all intents and purposes indestructible. Stone of all sorts crumbles and disintegrates under the action of the elements. But glass remains and will endure for centuries. It is, therefore, proposed that all memorial tablets, monuments and headstones be made of glass. Any color may be selected, pure white, of course, having the first choice. Lettering may be put on in any style, and any device or pattern may be used. It has long been understood that for marine purposes thick plate glass is the only practical and appropriate material, resisting storms and seas as no other substance can.—New York Ledger.

ONE OF TWO WAYS.

The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.

CHIEF CAUSE.

Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble or some sort. The error is easily made and may be as easily avoided. To find out correctly, set your urine aside for twenty-four hours; a sediment or settling indicates kidney or bladder trouble. The mild and the extraordinary effect of Dr. Kilmer's Swamp Root, the great kidney and bladder remedy is soon realized. If you need any medicine you should have the best. At druggists fifty cents and one dollar. You may have a sample bottle and pamphlet, both sent free by mail. Mention the REPUBLICAN and send your address to Dr. Kilmer & Co., Binghamton, N. Y. METHOD IN HIS MADNESS.

Police Officers Who Honored a Man Found Out Their Error.

A tall, slim man, with a vacant stare, walked into the police station of a western city, stepped up to the officer on duty and said in a hollow voice:

"Sir, I have an important communication to make. I am dead. I was murdered, and I entreat you to find the murderer and have me buried."

The official started back. It was evident he had a lunatic before him. He rang a bell, and the captain of the division, the police surgeon and all the constables obeyed the summons. In a moment the room was packed with a crowd of persons, all anxiously looking toward the surgeon, who, in such cases, has the first word.

"Just so," the latter said, addressing the stranger. "I could tell at a glance you were dead. Do you happen to know your name?"

"Certainly," the maniac replied. "My name is Berthold Leunwaz."

"And your address?"

"The grave."

"Who is the murderer?"

"Columbus."

"The same as discovered America?"

"Yes."

"Then let me congratulate you. We have captured the smart chap. Come, I will show you to his cell."

"Directly," said the madman in reply to the surgeon's diplomatic little speech and began fumbling in his pocket, from which he quickly produced a thick packet of neatly bound almanacs.

"Gentlemen, when I was alive, I used to sell these almanacs. They are the best sold in this country and only cost threepence each. You will admit that these handsome little volumes ought not to be left to molder in the grave, and, as we appear on such friendly terms, perhaps the gentlemen will not object to buy the lot."

Ten minutes later, almanacs all sold, he departed.—Scottish Nights.

At His Wife's End.

He sat in his office musing. "Now, here are two tickets for the theater to-night," he said. "If I ask Jones to go with me, I'm sure to find out when I get home to dinner that it's the only thing that's been here in a year that my wife really wants to see, and if I don't ask any one to go and plan to take her I'll learn when it's too late to make any change that nothing could hire her to sit through the old piece."

He puzzled his head over the question for an hour, and then he tossed up a quarter to decide what he would do, although he knew he would lose which ever way it came.—Chicago Post.

MILITARY SCIENCE.

Simplified Fortifications, Bicycles and Automatic Guns Are Modern Features.

It seems to be the general opinion among United States army officers that the development of military science in the immediate future will be in the direction of simplified fortifications, greater utilization of the bicycle and the extended use of some form of automatic gun. The modern army engineer sees little use in raising great mounds of earth such as used to be done when hasty and even permanent works were needed. The bigger the earthwork the greater the mark for the enemy's guns.

A hole in the ground has been the theoretical formula for fort building, and now that we possess fieldpieces with disappearing carriages it can be practically carried out. A gun that is capable of rising out of an innocent looking hole, pouring forth great volleys of death dealing bullets and then sinking out of sight, leaving hardly a trace of its presence and certainly nothing to fire at, is formidable enough to invest the new theory with all needful logic. It would be to an enemy what the hollow road near Waterloo was to the cuirassiers of Napoleon.

The rifle of the future will be the automatic rifle. This is the conclusion of military men not only of this, but of other countries. General Wille, a German army expert on the subject of firearms, says decisively that it will ultimately be the rifle in general use by the armies of the world. Its particular point of merit is its capacity for doing away with the mechanical operation of loading.

In effect it does its own loading, leaving the soldier free to attend to the business of firing, thus concentrating his attention on his opponent and rendering his aim sure.

As pointed out by General Wille, the force of the recoil of the automatic gun is employed for charging and closing the breech, and the firer has only to let off the shot in order again to load the weapon, so that the number of shots discharged without an effort is precisely the same as the total contents of the magazine.

The only comparatively weak part of the automatic gun lies in its springs, but, as they have been found after tests made in Austria to withstand the wear and tear of from 10,000 to 14,000 discharges, this does not count for much.—New York Sun.
